Press Release

New FJM Security Combination Disc Padlocks

Seattle, WA, August 7, 2015: FJM Security Products introduces a new product to the already popular FJM Security Combination Padlock line. The SX-790 heavy duty storage unit disc padlock offers a unique design intended to be resistant to bolt cutters and other intrusive tools. With stainless steel construction, this combination disc lock is rust resistant and can be used in harsh environments. These disc padlocks have a keyless convenience in that you simply need to enter your combination without the hassle of handling keys. 10,000 possible combinations, along with its intuitive design, makes this storage lock very secure keeping intruders out.

- Easy to set 4-dial combination
- 10,000 possible combinations
- Stainless steel and rust resistant
- Shielded shackle designed to resist attacks from bolt cutters
- Great for storage units, gates, bikes, etc.
